

Message from Our Founders

What a year 2020 has been! A year of challenges but also a time for opportunities to connect in ways we never thought possible. While our technology platforms during our virtual Go for the Greens Experience 2020 was a new experience to navigate as we broadcast live, we were successful in linking over 200 participants from the comfort of their homes during our virtual conference this year!

Throughout our 13-year journey, Go for the Greens has evolved into a year-round foundation focused on providing women of all ages with business growth opportunities through corporate and government contracting, shared experiences, green and sustainable practices and networking through the game of golf. And in part due to the pandemic, we now offer educational webinars and mentor relationships yearlong and golf from anywhere as part of our virtual reality.

If you have not done so yet, help us continue our Experience 2020 by registering and playing Virtual Golf and spreading the word about our Mentorship Program — to both our future leaders as mentees and to our established women leaders as mentors.

Despite the challenges and complications throughout 2020, we remain fully committed to making a difference in the world through our dedicated Go for the Greens family. We thank you for being a part of this community — as sponsors, partners, board of directors, planning team members, speakers and our program participants. We could not do it without you!

Please continue to stay connected with us through our website and social media channels for upcoming programs and mark your calendars now for September 22-25, 2021, when we plan to be together again in person at Walt Disney World's Boardwalk Hotel and Convention Center for our annual international business conference and golf event.
